

Facility Updates and Guidelines

Facility updates that will make your visits more enjoyable

- We've made a major investment in two industrial AirPHX systems. These systems will be the first in the Annapolis area and will make Evolutions a unique environment. Read more at www.airphx.com. We expect these to be installed in early July.
- Replaced all HVAC filters, to ensure we have the best filters to support air flow and filtration.
- Facility has been deep cleaned and been sanitized multiple times for the reopening.
- Added Air Oasis air purification systems in all classrooms and massage rooms. Read more about this Air Oasis at www.airoasis.com.
- Increased hand sanitizer stations and disinfectant wipes stations.
- Our staff members will all have sanitizer spray bottles to do extra cleaning in between clients. We use Nixall Disinfectant/Sanitizer, a medical grade but non-toxic cleaner. Read more about it at www.nixall.com
- Our evening cleaning crew will do cold fogging disinfecting applications to the facility on a reoccurring basis, to support a clean environment.
- Marked specific machines as off-line to help space clients in the facility.
- Extensive class options between virtual, outdoor and indoor classes, so we can comply with capacity guidelines and make it more comfortable for our clients.
- Signage has been placed throughout the facility to help support clients and staff maintain social distance.

New Guidelines and Hours:

- Currently, we will be closing daily from 1:00pm-2:00pm Monday- Friday for cleaning.
- Current Club Hours: Mon-Fri 5:30am-8:30pm and Sat/Sun 7am-3pm. These hours will be reevaluated on a regular basis, based on the flow of clients.
- Masks will be required in common areas and in all massage rooms. Masks are optional while exercising but suggested when appropriate.
- Please check in when entering the facility with your touchless key tag. You will be asked to sign an updated client oath/waiver upon your first visit.
- We are all part of a team that needs to take care of one another. Please thoroughly wipe down any piece of equipment you touch.
- Towel service will be provided, but we will only have one drop location at the front desk.
- Kids club will not open immediately. We will be evaluating our ability to reopen the kids club in the coming weeks.
- The saunas and showers will not be operational. We will continue to review the use of the saunas and showers, based on Government and CDC recommendations.
- We will monitor the facility capacity to meet government regulations. We ask that clients exit the facility immediately after their workouts, to provide the appropriate space for other clients.
- Please be respectful to others and practice social distancing when possible in the hallways, classrooms, workout areas and common areas of the facility.
